

ADEPU SRI CHARAN

sricharan.adepu36@gmail.com | +91-8297057873 | Portfolio | GitHub | LeetCode | LinkedIn

SUMMARY

Full-Stack Developer with expertise in Java, Spring Boot, Microservices, React Native and cloud-native architectures. Experienced in building scalable distributed systems, secure APIs, open-source software and production-ready mobile applications, contributing to CNCF projects and publishing software on Maven Central, deployed on cloud infrastructure platforms.

EDUCATION

J B Institute of Engineering and Technology (JBIET), Hyderabad

B.Tech in Computer Science and Engineering

2022 – 2026

CGPA: 8.2

PROJECTS

LifeLink | Java, Spring Boot, Kafka, Redis, PostgreSQL, Docker, React Native | GitHub

- Architected a distributed microservices platform using Kafka and Redis for scalable donor-recipient matching with JWT-based authentication
- Implemented event-driven communication and ML-based donor ranking enabling low-latency matching and optimized inter-service communication
- Developed a React Native mobile application integrating maps, real-time notifications and backend APIs

Spring Security Starter | Java, Spring Boot, Spring Security, OAuth2, Maven Central | GitHub | Maven

- Published a zero-configuration Spring Boot starter providing JWT authentication, authorization and refresh token rotation
- Designed a modular architecture supporting INTERNAL, OAuth2 and Keycloak authentication with customizable security components

AR Car Showcase | Spring Boot, React Native, Viro React, React Three Fiber, OCI, Cloudflare | Website | GitHub | APK

- Built and launched an AR platform enabling real-time 3D vehicle visualization and customization on mobile devices with public releases through GitHub
- Engineered Spring Boot APIs hosted on OCI with custom domains, HTTPS, Cloudflare CDN, search, filtering and recommendation capabilities supporting scalable backend services and asset delivery

HACKATHONS

Smart Innovation Hackathon 2K26 — WINNER (1st Place)

Apr 2026 | JBIET

- Developed a Digital Health Record System for Migrant Workers in Kerala aligned with Sustainable Development Goals (SIH) and integrated with LifeLink

OPEN SOURCE CONTRIBUTIONS

Dapr Quickstarts | CNCF Dapr Project | GitHub

- Contributed Multi-App Run support for Java, JavaScript and Python quickstarts using `dapr run -f .` [#1290] [#1292]

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, JavaScript, C | **Backend:** Spring Boot, Spring Security, Spring Data JPA, Microservices, REST APIs, gRPC, WebSockets, JWT, OAuth2 | **Databases/Messaging:** PostgreSQL, MySQL, Redis, Kafka | **Cloud/DevOps:** Docker, Git, GitHub, AWS, OCI, Linux | **Frontend/Mobile:** React Native, Next.js, React Three Fiber, Viro React | **AI/Developer Tools:** Codex, Claude, Gemini, Ollama, LangChain, Hugging Face, Llama, DeepSeek, Qwen, Cursor AI, GitHub Copilot, RAG | **Automation/Testing:** n8n, Postman, Swagger/OpenAPI, JUnit, Mockito | **Architecture:** Distributed Systems, Event-Driven Architecture, Recommendation Systems, Cloud-Native Systems

DATA STRUCTURES & ALGORITHMS

Solved 150+ LeetCode problems covering Arrays, Hashing, Two Pointers, Sliding Window, Trees, Graphs, Searching & Sorting

CERTIFICATIONS

- Programming in Java — NPTEL (Top 1%)
- Oracle Cloud — Foundations, Developer, DevOps, AI
- DSA — NPTEL (78%) | Certificates
